

U1 Battery

High quality Esan U1 type batteries specially developed to meet demanding needs of all Garden and Agriculture equipments.

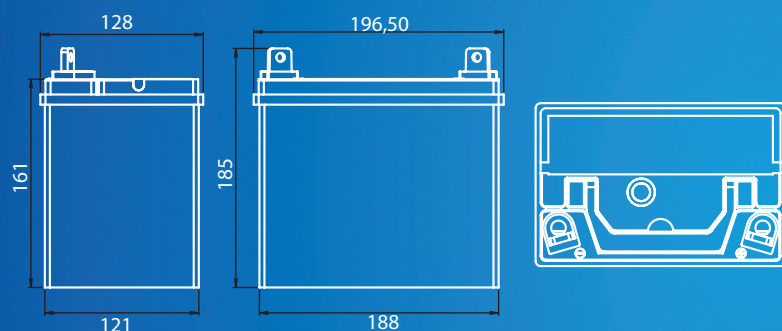

The high performed plate specially designed to meet cold cranking and energy demanding. In addition double lid designed to reduce water consumption and to develop maintenance free features and to have longer life and performances.

Technical Features;

- Maximum corrosion resistance with the special grid design
- Low resistance PE separator with the high CCA performances
- Screw type special pole
- Minumum water consumption with the special double lid
- Flame arrester integrated to lid
- Charge indicator
- Longer life and maximum cranking performances

Benefits;

- High Technolgy with the maintenance free
- Environmental friendly Product with the special sealed double lid
- Higher CCA capacity
- Resistance to deep discharges
